FOREWORD

I have great pleasure to place in your hand publication on the 'Bibliography of JNKVV theses (2009-2013)', where 1264 theses have been entered giving full details of each thesis i.e., year of award of degree, name of candidate, name of guide, title of thesis, accession number and college campus. Efforts have been made to keep the Vishwa Vidyalaya research workers, scientists and students always updated with the current and innovative research work.

The main objective of the theses compilation is to place the research findings of our research scholars at one place. This will help to avoid research duplication and to know the extent of research in a particular subject. Theses submitted for the award of M.Sc. / Ph.D. degree contain valuable research findings and scientific information. It was felt necessary to compile all theses submitted in the University library and hence in the first phase, theses of different disciplines have been compiled from academic year 2008-09 to 2012-13. This need is now fulfilled by the 'Satyanarayan Sinha Central Library' by bringing out this publication entitled 'Bibliography of JNKVV Theses', which is noteworthy work compiled by the staff of Central Library. I hope that this publication will be of immense use as reference tool to the researchers, agriculture scientists, extension providers, students and all agriculture concerned.

I appreciate the efforts taken by Dr. L.P.S. Rajput, Library Incharge and his associates Shri Siddarth Nayak, Shri Pradeep Dixit and Er. Sharad K. Jain in compiling this publication.

PREFACE

I have great pleasure to place in your hand, In this volume 1157 theses have been compiled.

Research plays a very important role in the intellectual heritage of a country. It is the harbinger of scientific research in all domains of knowledge which initiates the researchers into a great scholarly journey to academia. The outcome of the research is in the form of a dissertation –a rich and original source of information on a given subject, as it is the outcome of a focused and in-depth investigation.

The main objective of the compilation is to place the research findings of our research scholars at one place. This will help to avoid research duplication and to know the extent of research in a particular subject. Theses submitted for the award of M. Sc/ Ph.D. degree contain valuable research findings and scientific information. It was felt necessary to compile all theses submitted in university library and hence in the first phase, theses of different disciplines have been compiled from academic year 2008-09 to 2012-13. This need has been initiated by the Satya Narayan Sinha Central Library entitled “Bibliography of JNKVV Theses” which is noteworthy work compiled by the staff of central library. I hope this would serve as an useful reference tool.

I appreciate the efforts taken by Shri Siddarth Nayak, Shri Pradeep Dixit and Er. Sharad K. Jain is very much appreciable. We shall appreciate receiving suggestions to improve upon this volume for its next edition.

Ph.D. (Agricultural Engineering) Theses

Farm Machinery and Power Engineering

S.No.	Name of the Student	Accession Number	Title of Thesis	Major Guide
Farm Machinery and Power Engineering Year: 2009				
1.	Jain, Sandeep Kumar	T-82208	An approach to coconut harvesting and their storage structure	Shrivastava, Atul Kumar
2.	Tiwari, Prem Shanker	T-82367	Ergonomic studies on a pedal operated rotary device (Dynapod) for powering stationary farm equipment	Shrivastava, Atul Kumar
Farm Machinery and Power Engineering Year: 2010				
3.	Dubey, Alok Kumar	T-82368	Decision support system for farm mechanization with the use of computer modeling for paddy-wheat crop rotation in Jabalpur district of Madhya Pradesh	Shrivastava, Atul Kumar
Farm Machinery and Power Engineering Year: 2011				
4.	Naik, Rajesh Kumar	T-83109	Farm mechanization optimization and techno-economic solution with the use of computer modeling for paddy- chickpea crop rotation system in Chhattisgarh (India)	Shrivastava, Atul Kumar
Farm Machinery and Power Engineering Year: 2013				
5.	Ram, Ramchandra	T-83472	Studies on phase behavior of microemulsion of ethanol and biodiesel in diesel and its evaluation in diesel engine	Shrivastava, Atul Kumar

Post Harvest Process and Food Engineering

S.No.	Name of the Student	Accession Number	Title of Thesis	Major Guide
Post Harvest Process and Food Engineering Year: 2010				
1.	Verma, Devendra Kumar	T-82211	Optimization of process parameters for development of protein enriched rice (<i>Oryza sativa</i>) based snack food through extrusion cooking	Singh, Mohan

S.No.	Name of the Student	Accession Number	Title of Thesis	Major Guide
Post Harvest Process and Food Engineering Year: 2011				
2.	Tiwari, Virendra Kumar	T-83108	Studies on blending whole brown rice for nutrient enrichment of rice based extrudates through extrusion cooking technology	Singh, Mohan
Post Harvest Process and Food Engineering Year: 2012				
3.	Jain, Priti	T-83357	Studies on production process optimization of beet root powder using spray dryer and its comparison with conventional process	Khandelwal , B.M.
4.	Nema, Anurag	T-83356	Enhancement of shelf life of soy paneer (Tofu) through application of ohmic heating technique	Khandelwal , B.M.

Soil and Water Engineering

S.No.	Name of the Student	Accession Number	Title of Thesis	Major Guide
Soil and Water Engineering Year: 2010				
1.	Murlidhar, Deshmukh Mahendra	T-82214	Modelling of reference evapotranspiration using function approximation and time series approaches	Awasthi, M.K.
2.	Sharma, Satish Kumar	T-82687	ANN based modeling for estimation of runoff and soil loss	Hardaha, M.K.
3.	Sharma, Shailesh Kumar	T-82371	Geomorphological based identification of critical watershed for soil conservation using GIS and Remote sensing	Seth, N.K.
4.	Shirgaur, P.S.	T-82372	Evaporation modeling using artificial neural networks	Rajput, G.S.
5.	Shrivastava, Ratnesh Narayan	T-82690	Status and strategy of water resources utilization in upper Narmada basin	Nema, R.K.
