

Guidelines for Preparation of Synopsis

It is a plan of work for proposed Master/ Doctorate degree thesis research problem.

Synopsis is prepared and proposed by the student and approved by the Advisory Committee, Professor and Head, Dean of the respective College and Director Instruction of the University.

It consists of following sub heads

- Information about the student
- Title
- Introduction
- Objectives
- Brief resume of work done in Madhya Pradesh, India and abroad
- Plan of proposed work
- Collaboration with other Departments
- Bibliography
- Certificate of approval

Prerequisite for preparation of a synopsis

Identify the problem based on your exposure of the subject. To support the proposed problem review the literature. It should not be the exact repetition of the reported work. The literature is reviewed

- To know the importance and magnitude of the problem;
- To know whether this work has been addressed at the state, country or national level;
- If it has been addressed, then where, procedure, their observations, statistical analysis, conclusion, gaps to address etc. has to be penned.
- If it has not been addressed, then search the related work done on related crops viz., first of the same genera followed by family, use, season etc.
- Preference should be given to the directly related recent research work published in high rated journals.

Introduction

First paragraph Introduce the selected crop and write its importance in relation to the state, country and world.

Second paragraph Explain problems encountered by the crop. Write why this problem is chosen i.e., importance, magnitude etc.

Third paragraph Introduce the counter organism.

Fourth paragraph Hypothesis to solve the problem

All the statements in the Introduction shall be supported by reference.

Objectives To address the problem finalize maximum tow objecvties for Master and four for Doctorate degree research problem. Based on objectives, title of the proposed research programme and what will be the basis of the conclusion of the thesis are finalised.

Title For the proposed research work write a short title that shall able convey the problem addressed in the thesis. Avoid start of title with 'study on', no need to mention scientific name of common crop etc.

Brief resume of work done in MP India and abroad

From the reviewed research papers include most relevant, recent and important 6-8 papers addressed the problem in the state, India and abroad.

In the first paragraph write work done in MP, second in India and third in abroad.

Importance has to be given to the work, not to the scientist, place, material and method etc. It should be very crisp with the final relevant conclusion of the work done.

Plan of work

It shall be written in future tense with following sub heads

Place of work Field and Laboratory

Material source etc.

Procedure season, replication and other basic information.

Observation List it with unit and reference to record specific observation

Statistic analysis List the statistical tools with reference that will applied to judge the hypothesis.

Collaboration with other Department List the name of other Departments from where help will be seek for research

Bibliography

All the references cited in any part of the text shall be included in the bibliography. To prepare bibliography refer Guidelines on thesis writing, JNKVV, Jabalpur .

Synopsis seminar After preparation of synopsis, student has to present it in the Department with the help of Power Point for approval from the Advisory committee, staff members and Professor and head. All the suggestions made during the presentation have to be incorporated in the synopsis.

Printing of synopsis

Paper size	Legal
Margin	2.0cm at all the four sides
Number of pages	four (print on both side of the leaf)
Colour of paper	Bottle green
Font size	Title 12 bold Text 11 normal
Colour of font	black
Bibliography	Hanging, the font may be aerial narrow 11 as per requirement.

Submission of the synopsis Approved synopsis signed by the advisory committee shall be submitted to the Directorate of Instruction JNKV, Jabalpur with the approval of Professor and Head and dean of the restive Dean before announced last date for submission of synopsis.
